Dianthus Joliet

or "Mule Pink"

This charming new Perennial closely resembles the Carnation. Blooms freely from spring till heavy frost. Transplanted indoors, it will bloom all winter. Grows about 18 in. high ; is perfectly hardy.

We are now offering fine, large, two-year, field-grown plants at 50 cents each ; \$5 per dozen, postpaid.

You are always glad to know of new and unusual things in the Tree and Plant line for your home grounds, for these are often the means of making a place distinctive—different—remembered after others are forgotten. Especially is this true when the specimens are well chosen and tastefully arranged.

The new DIANTHUS JOLIET, reproduced in its natural color on the reverse side, is one of the *reliable* novelties we are offering this season.

Our Catalogue shows Trees and Plants suitable for the Central West, possessing that sturdy vigor which insures their doing well after you plant them. They are grown by men of experience.

And *now* is the best time to send in your order and get your planting done—before selections are broken and the season past.
